

READY... SET... CHARGE!

Smart EV Systems is a no cost, no risk way to increase your condominium's energy efficiency, reduce your carbon footprint and save you money. Smart EV Systems offers complete installation of a private Electric Vehicle Charging System designed for you, at no cost to the community and no upfront cost to the purchasers of the units. All associated costs and upgrades included in a low monthly lease package and hourly charging fee.

Here's how it works:

- ✓ No up-front costs.
- ✓ Low monthly lease - up to \$99 + HST all inclusive.
- ✓ Hourly charging fee billed monthly on a credit card.
- ✓ Only charged for the cost of electricity while charging.
- ✓ Sign up for 1-year lease term, with right to assign if unit is sold.
- ✓ Automatic annual renewal or terminate at year end with 30 days notice.
- ✓ Maintenance and repairs to the system covered under the program.
- ✓ Online support 24/7 and FAQ available.

SMART EV
CHARGING MADE SIMPLE

The Smart Solution to Reduce Your Carbon Footprint and Save Money
